

Zoom - Sharing your screen on a Mac laptop

Click the "**Share Screen**" button in the Zoom toolbar.

Select **Desktop 1** and click Share.

(Please note that the Meeting Host needs to allow others to share their screen)

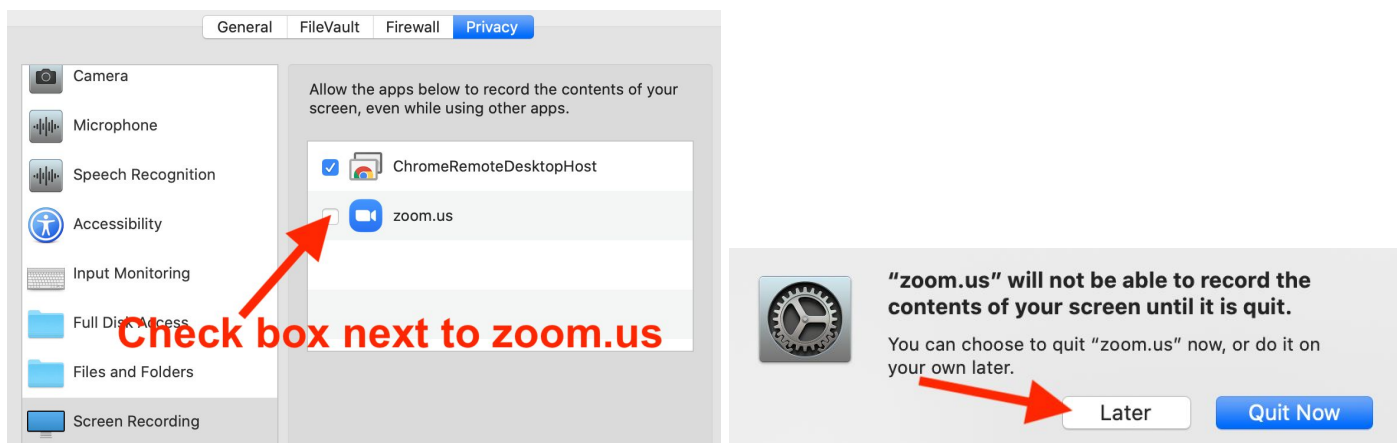

If you are asked to allow Zoom to share your screen, click **System Preferences**.

Allow Zoom to share your screen

Open System Preferences > Security & Privacy to grant access.

With Screen Recording highlighted in the left sidebar, **check the box** next to Zoom.us In the resulting pop-up window, it is ok to click "**Later**".

Then return to your Zoom meeting and you will be able to share your screen.
